WASHINGTON, Mar. 16.—House acceptance of senate amendments to President Roosevelt's \$500,000,000 economy bill was recommended today by the house economy committee, following a meeting with Democratic senate leaders.

The senate approved the bill last night by a vote of 62 to 13 with the senate Democrats bound by caucus to support it.

In agreeing to recommend that the house acquiesce in the amendments the house committee paved the way for quick final action on the drastic economy measure. This action would avoid the necessity of appointing conferees.

"All these amendments are purely protective," said Representative McDuffie (D) of Alabama, chairman of the House committee. "They are intended purely to safeguard the interests of war veterans and federal employees. I am sure the amendments are acceptable to the White House."

PA NEW OBSERVES

From the railroads here Pa New learned today that it took 5.3 cents out of every rail dollar to keep train locomotives fueled in 1932. For other things the 100 cents went as follows: For labor (salaries and wages) 46.9; for material, supplies and misc., 17.9; for less and damage, injuries to persons and insurance, 1.5 cents; for depreciation and retirements, 5.3; for taxes, 7.3; for hire and equipment and joint facility and net rentals, 3.2, and for the net railway operating income, 12.6 cents.

Colder weather, which brought an end to the rainy spell of the last few days, has caused local streams to start falling, and danger of any possible flood has been eliminated. The Shenango river was down a half foot this morning, while the Neshannock is falling more rapidly. Cellars near the Neshannock creek were flooded by the high water, merchants in that district report, although no serious damage was reported.

Four more days and Miss Spring will make her debut. The weather today indicated that fact, bright, warm sunshine supplanting the rain clouds of the past few days.

Over 80 Per Cent Of Banks Now Open In Keystone State

(International News Service)

PHILADELPHIA, Mar. 16.—With the approval of federal and state banking authorities, 909 banks or more than 80 per cent of the 1147 banking institutions in Pennsylvania today were open on a normal business basis.

Banking officials may within the next few days augment the list of "sound" banks as the result of separate formal hearings accorded some of the 225 banks which thus far have not been granted licenses to renew business. Of the 225 banks, 62 are state-supervised institutions, while 163 are national banks under the jurisdiction of the third federal reserve district.

The 909 institutions were licensed to reopen for complete banking operations during the past three days in fulfillment of President Roosevelt's emergency program to reopen sound banks immediately in order to permit resumption of the nation's business.

Bank check clearances in Philadelphia yesterday reached a staggering total of \$37,000,000 compared to \$32,000,000 Tuesday and \$19,000,000 on Monday. Meanwhile, approximately \$6,500,000 in gold coins and gold certificates have been exchanged or redeposited at local banks.

ROCHESTER, N. Y., Mar. 16.—Police were searching today for clues in the murder of 27-year old Erich Baumann who was strangled by a rope.

The young German-American, about to celebrate the receipt of his final citizenship papers, was found yesterday face downward on his bed on the eighth floor of the Y. M. C. Baumann, powerfully built, genial, a trained gymnast, had no bruises on his body, no cuts, and there was no sign of anesthetics in his system.

NASHVILLE, Tenn., Mar. 16.—Rehabilitation work began today in a score of Tennessee cities and towns which bore the brunt of a tornado that killed 43 persons, injured 200 others, many critically, and destroyed \$1,000,000 worth of property.

National guardsmen throughout the tornado-stricken area assisted doctors, nurses and Red Cross workers in caring for the injured. Aided by police and firemen and volunteer workers, the militiamen today were working to clear away the wreckage of homes and buildings from thoroughfares.

Cuts Wide Path
The tornado left its trail of death and destruction for 300 miles across the northern section of the state as it whirled eastward from southwestern Missouri to the Cumberland mountains Tuesday night.

Twelve bodies were recovered in Nashville, where more than 100 were injured. The giant twister destroyed hundreds of homes and buildings here as it swept through East Nashville. Firemen and police were assigned the work of clearing away the debris. Nine were killed in Pruden, six in Kingsport, three each in Harrogate and Oswego, five in Lebanon, two each in Rogersville and Bellwood and one in Mill Point. Many buildings were destroyed in each town.

Predict Collapse Of Education-

tion Is Not Increased

(International News Service)

HARRISBURG, Mar. 16.—Prediction that Pennsylvania's educational structure will collapse if the \$53,000,000 appropriation for teachers' salaries is not increased by the general assembly confronted state officials today.

This assertion from the executive board of the Pennsylvania State School Directors' association was presented to Gov. Gifford Pinchot, legislators and the state superintendent of public instruction. It accompanied an appeal to the governor and general assembly to boost the financial support to public schools, many of which may not be able to open under the proposed appropriation, it was claimed.

Adoption of the present measure would force decreases of 10 to 25 per cent in the allocations to school districts which are financially embarrassed by the decrease in local tax income, the association pointed out.

SCHOOL BUDGET CHANGES SCHEDULED FOR YEAR

Elimination of supervisor of vocal music, saving \$2400.

Combine duties of attendance officer with those of school nurse, saving \$1125.

Elimination of supervisor of art (supervisor has been on furlough this year).

Eliminate school dentist.
Eliminate one of two dental hygienists. Total savings in dentistry \$3300.

Reduce number of instructors devoting half time to athletics from two to one.

Washington, Mar. 16.—There is an old adage to the effect that one should "strike while the iron is hot." Franklin D. Roosevelt thoroughly believes in it.

Consequently, there will be no let-up in the terrific pace he has set for his new administration during the first twelve days of its existence. Already possessed of more dictatorial powers than were ever reposed in any peace-time president, through the enactment of the emergency banking act and the economy bill, he will ask and receive still more before a somewhat bewildered congress is permitted to go home to reflect on the dramatic happenings of the past ten days. SALARY INCREASES ARE ELIMINATED

Number Of Positions Are To

Although the formal setting of the school millage for the coming year will not be made until April 1, by the New Castle school board, the board actually adopted its budget Wednesday night, March 15, set the millage at 15 instead of 16, a cut of one mill, and took another slash at a budget that was thought to be down about bone bare. The \$5.00 personal tax continues.

The establishment of this year's millage sees practically the last of any school function that might possibly be considered an appendage on the school system. Last year the board dropped the shops, the home economics classes, swimming pools and a few other things. This year it goes farther and cuts off the supervisor of vocal music, the school dentist, one dental hygienist and anticipates the action of the Pennsylvania general assembly in refusing any added increments or salary increases to teachers this year.

Dr. Bennett Is New Head Of Relief Board

At a special meeting of the Lawrence county emergency relief board held Wednesday, Dr. G. S. Spencer Gordon, a representative of the state emergency relief board, was present and said that the state organization regretted the resignation of Senator Weingartner and commented upon the work he had done. The board members passed a resolution of regret at the resignation and paid tribute to his work. The board members realize, however, that his business affairs prohibit his giving all his time to the work of the relief board and accepted the resignation regretfully.

BEER BILL PROBABLY TO PASS TODAY

Wine Growers Enter Protest

Declare 3.2 Per Cent Wine Is An Impossibility; Ask Change

WETS SEE BEER SALE BY APRIL 3

(International News Service) WASHINGTON, Mar. 16.—The Cullen bill legalizing 3.2 percent beer, by weight, was assured prompt passage in the senate today following a fight over the inclusion of wine and fruit juices.

The bill came before the senate from the finance committee with its provisions broadened to authorize manufacture and sale of 3.2 percent vinous drinks.

Kicking over the traces, California wine growers wired Senators Johnson (R) and McClellan (D) of California requesting that an amendment be sought on the senate floor legalizing all naturally fermented wines. This would raise the alcoholic wine content permissible under the bill to about 10 percent.

Wine Growers Protest

The wine growers made it plain that 3.2 per cent wine would not meet the needs of their industry. They asked that if the amendment should be lost, the wine provision be stricken from the bill.

In view of this development, several senators took the view that the senate probably would strike out the finance committee amendments and approve the bill in the form adopted by the house.

Senate wets set April 3 as their goal for the actual distribution of beer in states where its sale is not prohibited by state laws. The bill would legalize the sale of beer 15 days after enactment.

passage. It is senatorial courtesy to permit reconsideration and still allow the man seconding the motion to vote "no" on the second roll call. The bill failed Tuesday by two votes, the count being 26 to 24.

Vote May Be Tied

If the amendments are inserted and McClellan furnishes the only change from the original roll call, the vote would be tied at 25 and Lieut. Gov. E. C. Shannon, presiding senate officer, would have to break the deadlock. The McClellan amendments, however, might bring switches by either or both sides. It is speculative therefore, whether the second test would make defeat more decisive, result in a tie, or easily effect passage.

McClellan's decision threw a ray of hope into the despairing ranks of the liberals, immediately set to work on mobilizing forces for another test. They looked to Senator G. Mason Owlett, Tlaga, as the one to second McClellan's move and then line up with him on the affirmative side when the roll is again called.

In response to assailants who threw responsibility for the modifier's defeat into his lap, McClellan revealed his stand on the controver-

sial subject. He never has and never will approve the bill in its present form, he asserted.

His amendments would confine Sabbath sports solely to baseball and football. Whether senators who insist upon legalization of their Sunday golf will provide another obstacle remains a question.

"I believe the people are entitled to determine for themselves whether they want baseball and football on Sunday," McClellan stated. "I have no objection to granting municipalities the right to license such sports if the people express themselves in favor of them."

Under his plan, a double referendum would be held at the November election. A popular state-wide vote would decide whether or not Sunday sports would be legal in Pennsylvania.

In addition, the people would vote whether they favored the games in their own localities. The state-wide vote would supersede. If the majority is affirmative, the sports would be legal in those communities which voted for them, and illegal in the communities opposing them. If the state-wide vote was negative, the vote of a single locality would mean nothing.

Two thirds of Cunningham park, a 120 acre plot, will be good for garden purposes this spring, according to City Engineer Harry Hoskins. It is probable council will direct him to lay out the lots. Each lot may be half an acre in size.

SCHOOL BUDGET IS GIVEN SLASH; TAX CUT 1 MILL

(Continued From Page One)

the general assembly will pass such legislation. If it is not passed some drastic method of making up this difference will have to be found. The board feels that as long as conditions remain as they are, there is no logic in increasing salaries.

The board also armed itself against any possibility of being caught by prohibitory legislation of the General Assembly, by arranging for the special session of the board before the last day for notifying teachers of the discontinuance of contracts. Briefly this means the following:

Under the present law a teacher's contract is continuing, unless the board notifies the teacher 60 days before the end of the term that the contract is terminated. A bill is pending before the present session of the General Assembly, which would prohibit the taking of voluntary contributions from teachers. While such a bill is thought to be unconstitutional, yet the board is using caution, and if this or similar legislation is passed, designed to hamper the work of school boards in making reduction of salaries, the New Castle board will revoke every teachers contract in the city and will thus be enabled to renew them on a new basis. Such action will be taken only when the General Assembly passes such restricting legislation, if it does.

New Budget \$1,118,562

The new budget calls for \$1,118,562, which seems as large as in previous years but actually is not for the reason that the tax liens to be filed will run \$165,000 on property and \$60,000 on exemptions of the personal tax do to inability to collect. It must also be remembered that the total tax liens filed against property for school taxes amounts to \$300,000, which if paid would mean five mill tax. These liens will some day be paid, it is thought, and when they are will be of large benefit to the school district.

The Budget Committee also calls attention to the fact that four million of tax are represented in charges over which they have no control, \$176,000 for debt service and \$18,000 for the Teachers retirement fund. The report of the Budget Committee to the School Board, which is self explanatory, follows:

To the Board of Directors of the School District of the City of New Castle, Pa.—

Your committee, termed Budget Committee for the school year 1933-34 began its final report.

Your committee through its endearments and to the best of their ability at all times recognized that in the compiling and recommending of a budget that three groups, having primary interest are to be considered. They are the tax payer, the children and the employees. Any action taken affecting one necessarily affects the other and the community.

We recognize that drastic actions such as have seemed to us to have been necessary have been both the subject of commendation and criticism. We believe that events of the past year have in a large majority justified the action taken by the board. Of this work the public must be the final judge.

We have no apology to offer either to the board or to the public in finding that economy by whatever method possible must be practiced, taking into consideration the welfare of the children and that a community without schools is unthinkable.

While we trust that the legislative relief measures, by the enactment of relief measures, it is essential that the millage be agreed upon before this time in order to save the expense of getting the tax cards to the public in accordance with the usual method pursued; i. e. in connection with the city.

The budget we recommend is \$1,118,562, the levy to be at 15 mills and \$5.00 per capita personal tax. In the budget we have set up an estimated exoneration of personal tax of \$60,000. We have estimated that property liens to be filed will be in round numbers \$165,000. In other words, that \$225,000.00 of tax levied will not be paid at the end of the 1933-34 school year. We would call attention to the fact that if the tax was paid we could reduce an additional 4 mills.

We anticipate filling for the year ending July 1, 1933, \$200,000.00 of property tax, making the total property liens filed for the last three years in round numbers \$300,000.00. We anticipate that during the coming year a sufficient amount of such tax liens will be paid to make up any deficit set up in the budget and consequently we feel that we are justified in recommending the 15 mill levy. We would also state

that the present budget sets up \$60,000.00 of a deficit in property liens over and above the estimated amount set up in that year's budget. We recommend that as we have \$70,000 in bonds that are falling due during the year 1933-34 that the bonds be refunded. We hope and expect at a less interest rate. This we believe is justified as it will have the expenditure of \$70,000 in cash during the coming year and the date through the payment of the tax liens already referred to. We would remind the board that in last year's budget it was only necessary to provide \$40,000 in cash for the retirement of bonds as we had in the sinking fund \$30,000 which enabled us to take care of the \$70,000 in bonds which had to be paid.

We recommend the elimination of the position of supervisor of vocational music at \$2,400, the combining of the school nursing and the duties of the school trustee officer at a savings of \$1,125, the elimination of a school dentist and one dental hygienist at a savings of \$3,300, a re-arrangement of buildings and grounds at \$3,455 or a total reduction in these items of \$10,280. We also recommend that where we now have two instructors devoting one-half time to athletics that the number be reduced to one.

In addition to these deductions it will be necessary and we have inserted and expect as a donation from our employees 20% of their salaries for the school year 1933-1934, or a saving to the district of \$138,839; this being the method employed during the past year. The employees have been loyal during the past year and expect and feel that we are justified on counting on their cooperation.

We recommend as absolutely necessary that all increments be suspended during the coming year and have compiled the budget accordingly. This will account for a savings to the district of \$15,264. We regret that we have found it necessary to recommend cuts and eliminations as has been done, but we believe it to be absolutely necessary in order that our schools may be kept open.

We would further call attention to the fact that the proportion of taxes have increased, from 7% at January 1, 1928 to 33%, January 1, 1933, and would again call attention to the fact that in the present budget in addition to the \$225,000 estimated deficit for the year 1933-34 for unpaid taxes it was necessary for us to provide for a deficit of \$60,000 on account of unpaid property tax in last year's budget over and above the estimate made.

We would not close this report without calling to the board's attention that there are many large items such as the item of \$176,000 for debt service, \$18,000 for teachers' retirement fund and many others which are absolutely fixed and over which the board has no control in the way of deductions.

Respectfully submitted,
MRS. JOHN E. ELLIOTT,
W. W. DUFF,
ROY W. HAZEN.

CONGRESS WILL GET NEW MESSAGE FROM THE PRESIDENT

(Continued From Page One)

omy measures, Mr. Roosevelt will demand—and get—broader powers than previous congresses have been willing to repose in any executive.

Congress Is Cowed

To all intents and purposes, the 73d congress is thoroughly cowed. This was amply demonstrated in the fact that only a handful of members in both houses could be mustered against the revolutionary legislation already passed.

Sensing that, and heartened, too, by the unmistakable signs that public opinion is solidified behind him, the president has discarded his earlier plans for a congressional recess, and now plans to drive straight through to the enactment of the major part of his whole emergency program.

This program has five main points:

1. The emergency banking act.
2. The economy act.
3. Modification of the Volstead act to legalize beer.
4. Unemployment relief.
5. Farm relief.

The first three are virtually out of the way, or will be in a day or so. Unemployment and farm relief can be disposed of, it is believed, in a few weeks.

Congressmen Perplexed

The situation is not without its comical aspect, for scores of members of congress, both old and new, came to Washington for the inauguration with their pockets bulging with economic programs of their own. For the most part they remain there. They have had no time to propose their own remedies, but only to support or oppose the administration's proposals—shot at them with machine gun-like rapidity and precision.

They have not even had an opportunity to talk in the house. Rules have been invoked to limit debate to only a few hours, and elaborately planned speeches remained locked in the speakers' bosoms.

Congress has been deluged with more telegrams in ten days than in any similar period in history. Probably 90 per cent of them have demanded that members "stand by the president" and his program in the emergency. And the membership has been duly impressed thereby.

Once the unemployment and farm relief measures are out of the way, and congress gets a chance to get its breath and take stock of the situation it may be a different story. But by that time Franklin D. Roosevelt will have most of his emergency program on the statute books. And he will be armed with more far-reaching powers than any of his peace-time predecessors. After that congress can talk to its hearts content.

SEE FINAL ACTION ON ECONOMY BILL WITHOUT DELAY

(Continued From Page One)

night, 62 to 13, after modifying some of the important sections. Administration leaders predicted it would become law this week.

The bill would confer on Mr. Roosevelt the broadest powers ever given a chief executive in peacetime. It would repeal all existing veterans' laws and give the President authority to revise pension lists and rewrite the basic pension rates. It specifically repealed all presumptions, heretofore conferred by law, barred widows of World War veterans from pensions, unless the veteran died of service-connected disability, and slashed Civil War pensions by 10 per cent.

The President further was empowered to determine the reduction in the cost of living since 1923 and apply a like percentage to slashing salaries of federal employees. He merely was held to a maximum slash of 15 per cent. The veterans' slashes were expected to save \$375,000,000 and the salary cuts \$125,000,000 a year.

Under the lash of criticism from both sides of the chamber the Senate modified a few sections of the bill. Its most important change was to exempt the pensions of all veterans from all wars, disabled in line of duty on active service, from the economy axe of the President. Mr. Roosevelt was prohibited from economizing on this group—the battle-scarred veterans—unless he reduces the basic rate of pensions.

Other liberalizing amendments adopted were: by Bill (D) of Washington, exempting Spanish-American War veterans over 62 years of age from being taken off the pension rolls, but subjecting them to any slash the President may see fit; by Copeland (D) of New York, giving the President the discretionary power to provide domiciliary care for tubercular and neuro-psychiatric veterans; by Black (D) of Alabama, permitting admission to hospitals of veterans suffering from non-service connected disabilities, and allowing veterans to file and prosecute in the federal courts the claims arising under the war risk insurance act.

THE MORAL VALUE OF WORK

A CITIZEN of one of the western farming states, in an article descriptive of agricultural conditions, takes a cheerier view of the farmer's lot than is generally permitted in discussions of it. He does not minimize the troubles or try to see more of the bright side than is apparent to most observers, but he concedes that the farmer, distressed as he is, nevertheless has food and shelter, and he adds a third point, which is plain enough but has not been much dwelt upon.

The curse, the real terror of the prostrate industrial centers, is idleness, remarks the Chicago Tribune. It may rest easy on the spirit of some, even of many of the people who are not now self-supporting, but the honest, formerly independent workman who has idleness forced upon him by his inability to get anything to do has in his life one of the most morally and spiritually sickening elements of hard times. The terror of his unoccupied days strikes at his self-respect and affects his mood more injuriously than would deprivations against which he could make a fight.

As this writer from the country district says, the farmer still has his work to do. He has an occupation, his daily routine, even in the winter, and although the profit has gone out of it, it is still there as a stimulus, as a moral support and a justification for his day. Even if it cannot be converted into the money he needs, its value in his life remains.

THE UNSUNG HERO

Many of us are prone to forget these days that many a man with an income cannot be regarded as being "in the clover," as the popular expression has it.

Often times this man is looked upon by unemployed persons as "lucky." Some might say he "doesn't know how lucky he is." And such is the case, in some instances.

But on the other hand, there are thousands of employed men and women whose single payroll check is quite likely to be providing food and board for two or three or possibly a half-dozen unemployed relatives.

One instance is related. A certain man has never been without regular employment throughout the current depression. In fact, he has had only negligible salary reductions. This is not, however, the whole story. It's only the beginning.

For this poor fellow has been making his pay-checks provide "keep" for no less than five persons in the family of a brother during two of the past three years. He's been feeding, clothing and paying rent for the whole family and has, in addition, paid heavy hospital expenses for one of his brother's "dependents."

Surely, this man deserves ranking as one of the depression's unsung heroes. And he has many contemporaries who are in much the same boat.

NEW UNITED STATES SENATOR FROM MONTANA

Governor John E. Erickson becomes the new "gentleman from Montana" in the United States Senate, in succession to the late Thomas J. Walsh. That is to say, he was the governor; but he was transformed into a senator in eleven minutes. He resigned his office as governor of Montana late on Monday. Lieutenant Governor Cooney became the new chief executive of the state and his first official act was to name his predecessor as senator. That is quick work, particularly when we recall that many men have spent the greater part of their lives trying to get to the senate and have then failed.

This may have the appearance of political thimble-rigging, but the public will be more interested in what Senator Erickson will do after he takes his seat in the senate rather than in the curious manner in which he acquired that honor. The fact that he was elected to the governorship three times is a point in his favor. He seems to be very well known in Montana, but he will be a comparative stranger in Washington. In the natural order of things he can hardly be expected to have the same influence as Senator Walsh. His sturdy predecessor was a member of the senate for twenty years, and when he died had a national reputation as a vigorous and able public servant.

It will take time to become acquainted with Senator Erickson. He will have to be a pretty good man if he is going to fill the shoes of "Tom" Walsh in an acceptable manner.

THE NEW CASTLE

All Of Us

BY MARSHALL MASLIN

Something awakened me in the night and I looked from my window and saw a tall flame against the sky. From my hill it seemed like a lovely tree, awake and growing swiftly in the darkness. It seemed more than a tree; it seemed a glory and a joy, with all the little houses drawing back from its awful presence, and the little blue street lights shining modestly in the foreground. It seemed like a splendid animal that had escaped from its cage and was raging joyously, charming and fascinating and terrifying. And I could not keep my eyes from it.

For a while it leaped lonely and proud and then I heard bells ringing and I heard a distant siren and the great purr of rushing machines. . . . And then I could see the flames drooping and swaying. . . . It drooped and then it sprang upward again, defiantly. Sullenly, resentfully, it looked down upon the earth and then, flaming and fading, flaming and fading, it seemed to surrender and struggled no more and was seen no more from my hilltop. It had gone back to its cave again, the majestic flower, that beautiful, maddened, desperate animal.

It was somebody's house. . . . I read about that the next day. Some little four-room bungalow was destroyed by fire early yesterday morning. Sparks from a chimney fell on a roof and the house was ablaze before the family knew it. The insurance was so much, the loss was so much.

Hardly anything was saved. The books, the rugs, the clothing, the new washing machine; the children's toys, son's stamp collection, daughter's doll; the latter father wrote to mother before they were married; the picture of grandmother when she was a little girl; all these went up in flame.

All these had been licked up and thrown inexorably into memory by that wild beast of fire. It wasn't beautiful at all. It was ugly.

Last night they felt lost, stunned. . . . But neighbors were kind, and they were glad that none of the family was burned. They were still together and they'd get another start somehow. They surely would.

SELF-CONTROL AT HOME

Do you make requests or demands of those who comprise your household?

If you are belligerent it is not surprising that your home life is not what it should be.

A large part of the antagonism we seem to encounter is the result of our own manner and lack of self-control.

To meet other members of the family half way would save a great deal of unpleasantness.

To want others to show their good qualities while withholding our own is not the way to keep peace at home.

Don't you want to be just and companionable?

Don't you want to have the respect of your family as well as others?

Home is not the place for uncontrollable fits of anger.

Home is for self-control.

You may be able to get outside sympathy at first, but when it becomes known that you indulge in dramatic outbursts of temper when things annoy you, you will find all turn against you.

The secret of successful home life lies in self-control and unselfishness, not in accusing others constantly.

Heroism and Self-Sacrifice Make Cermak Great Figure

Mayor Of Chicago, Dying At Hands Of Assassin, Raised To Unique Place In National History As Patriotic Impulses Stand Revealed

Mayor Anton Cermak's simple words to President Franklin D. Roosevelt, as he was fatally wounded in the presence of the nation's Executive, are remembered by his countrymen in the estimates of his character and services. The statement, "I am glad it was me instead of you," is made his epitaph, and is ranked with other features of his career which stamped him as a courageous and self-sacrificing patriot.

"It will always be remembered," thinks the ROCK ISLAND ARGUS, "that in the moment of deepest crisis, his first thought was not of himself, but of the man whom the people of the United States had elected president. It is written that he who lays down his life for his friend has attained to the heights of sacrifice. This man from far off Bohemia, who, from being a mule-driver in an Illinois mine, rose to be mayor of America's second largest city and a national figure, could only be 'vanquished by death.'"

The ATLANTA JOURNAL, declares that "it is Cermak, the immigrant, unschooled and unlettered, who has enriched the literature of American public life with a brilliant and deathless expression, in his words to the President." The ASBURY PARK EVENING PRESS feels that he "gave the impression that had the opportunity presented itself, he would have deliberately stepped in front of Mr. Roosevelt and sacrificed his own life."

"The significance of such a soul," says the ATLANTA JOURNAL, "touches our dust with the Divine, and reaches beyond death's shadow."

That paper feels that "he was a man who, in his faithful hour, shone with the glory of utter self-sacrifice." The Journal also describes his career with the statement, "Though he has lost his heroic battle against bodily death, Anton J. Cermak lives in the hearts of the American people. His career reminds them of the bravest and best remembered types in their country's past, of the pioneer, the free soldier, the man of adventurous faith, the conqueror of fortune's odds, the builder of what is most characteristic in our democracy."

"An engaging personality, rugged honesty and a willingness to work as hard in the public service as he has in his own business," according to the SAN FRANCISCO CHRONICLE, "were the qualities that recommended him to the public favor. He had more than a politician's capacity for friendship and the capacity for loyalty to American institutions. These two characteristics of friendship and loyalty found expression in the simple sincerity with which he greeted Franklin D. Roosevelt when the President-elect called at his hospital bed: 'I am glad it was me. Frank, instead of you.' Nathan Hale became immortal through a phrase much like that. No finer epitaph could be written for Anton Cermak."

"In achieving his position of influence and power," thinks the BALTIMORE SUN, "there must have been many occasions to call upon reserves of fortitude and character, and these qualities enabled him to hold off the Last Enemy during three crises, and to win the sympathetic admiration of all of us." Red Cross Will Accept Funds For Disaster Relief

Half Million Dollars Is Being Raised For Earthquake Sufferers

Chairman Harry Alexander of the Lawrence county chapter, American Red Cross, is in receipt of a communication from DeWitt Smith, manager of the eastern area, authorizing the chapter here to accept funds for the relief of sufferers in the recent earthquake in California.

The Red Cross has been designated by Governor Rolph of California as the official relief agency for the sufferers from the earthquake, and a campaign has been inaugurated to raise \$500,000 for this purpose, to which the national organization has subscribed \$50,000 from its own treasury.

There are approximately 7,500 families in the earthquake area who are homeless and without resources.

Red Cross relief in this disaster must be based upon the amount of contributions received, and those expecting to contribute are asked to send in their contributions immediately.

PRICES ADVANCE IN GREAT TRADING MARTS

(International News Service)
Staple commodities in the great trading marts today rushed upward, to join the advancing prices of securities in New York's exchanges.

Although the New York stock exchange encountered heavy profit-taking early in the going, the boom in securities prices started yesterday continued with gains of 1 to 4 points. A tremendous buying wave sent the high speed ticker far behind the transactions. Bonds continued upward, led by governments, bank stocks improved and the dollar was strong.

A wild buying wave swept the Chicago grain pits right after the opening gong, with all grains except oats touching maximum limits.

Wheat was up 5 cents, corn 2 1/2 to 3 cents, rye 3 1/2 to 4 cents and barley up 3 cents.

Similar buying swept the Kansas City Board of Trade with wheat leaping the restricted maximum of 5 cents a bushel and corn its 3-cent limit.

Cotton jumped \$2.50 a bale at opening of the New York Cotton Exchange while reopening of the New Orleans cotton market was the signal for a leap of \$4 and \$5 in some months.

Foreign exchanges reflected the enthusiasm and improved sentiment of American buying. Leading American shares closed higher in London while on the Paris Bourse the dollar opened with renewed strength while the pound sterling sagged.

Vets To Attend Council Meeting

Will Send Delegation To Tri-County Council Session At Harmony

Plans have been made by the Harry L. McBride Post, Veterans of Foreign Wars, to attend the meeting of the tri-county council, which will be held at Harmony Thursday evening.

Announcement was made at the meeting last evening that arrangements are completed for the card party to be held on Wednesday evening, March 29. The party will be held in the Sons of Veterans hall in the City building, because of the fact that accommodations at the Legion Home are limited and a large attendance is expected at the card party.

Accident Causes Arrest Of Driver

Police Allege James Aiello Was Driving Car Not His Property

As the result of an accident last night at South Mill and East Lutton streets, James Aiello, who makes his home here and in Wampum, faces the charge of larceny of an automobile and also of driving a motor vehicle without a driver's license.

Police were called to South Mill and East Lutton streets about 7:30 o'clock. Here they found that Carl F. Faust of Linesville, Pa., had been driving the wrecker of the Mill Street Auto Wreckers south on Mill street and started to make a left hand turn into East Lutton street, when the car of Charles Chiurazzi, 31 South Jefferson street, operating in his rear, ran into the side of the wrecker, causing considerable damage to it. Faust saw two men get

out of the machine and these proved to be James Aiello and Sam Nicholson of Wampum.

About 8 o'clock Charles Chiurazzi reported that his car had been taken. The car figuring in the automobile accident proved to be that of Chiurazzi.

At the hearing this morning before Mayor C. B. Mayne, Aiello and Nicholson insisted that there had been a third man in the car driving it. However, they failed to prove this and later Nicholson in a statement made to the police stated that Aiello had been driving the machine practically all the time and at the time of the accident.

The result was that the mayor directed Chief of Police John F. Haven to make a charge against Aiello in keeping with the offense committed. Nicholson was discharged.

Castlewood Will Have Community Meeting Friday

Bigger, Better Castlewood Object Of Meetings; To Have Program

Next of a series of rousing community meetings in the interest of a bigger and better Castlewood will take place at the grade school building on the evening of March 17 at 7:45 o'clock.

Matters of importance to the residents of the Castlewood community will be discussed. Rev. Thomas Berger of the Slippery Rock Presbyterian church will be the speaker of the evening. Rev. Berger is well known here.

Petitions have been circulated this week asking the supervisors to use their influence toward the erection of a fire house in the fourth precinct of Shenango township. This would decrease the fire insurance rate and if the proposed community house could be built in conjunction with it, the people of the community believe much money could be saved the public.

Committees have already held preliminary meetings relative to this building and will report Friday evening. Many men of the community have volunteered to help in the actual construction work. Voluntary subscriptions of money will be gladly received, but no financial burden will be laid on anyone. It is the purpose of the meetings to see what co-operative boosting can do. A building in which to hold social, business and educational meetings, and where the young folks can spend their evenings in harmless amusements would be a great benefit to Castlewood.

Jury Hears Story Of Starvos Death

Peter Kakovros On Trial For Involuntary Manslaughter Growing Out Of Fight

The case of Peter Kakovros, charged with involuntary manslaughter in connection with the death of John Starvos, is on trial today before Judge R. L. Hildebrand in county court. It is claimed that during a fight between Kakovros and Starvos, in front of the Walford restaurant, that Starvos was knocked down. His head struck the pavement resulting in injuries from which he died later. The commonwealth takes the position that the death was the indirect result of the blow. The defense maintains that the blow would not have caused death but that the death was due to Starvos' head striking the pavement and that therefore it was an accident. Considerable testimony was given by persons who saw the men quarreling.

MacDonald Urges Nations To Show Germany Justice

MacDonald Asks That Germans Be Shown Justice By Nations Of World

SPEECH MADE AT GENEVA SESSION

Satisfaction For Germany Is Key To European Peace And Disarmament

By ARNO DOSCH-FLEUROT
International News Service Staff Correspondent

GENEVA, Mar. 16.—An unexpected plea for "justice for Germany" was voiced by Prime Minister J. Ramsay MacDonald of Great Britain today.

Making his last appearance before the general commission of the disarmament conference prior to his journey to Rome for what promises to be a momentous meeting with Premier Benito Mussolini, the British premier stressed the need of compromise.

Needs Justice.
"Unless Germany is given justice," he said, "Europe faces risks." MacDonald referred to "recent events and speeches" throughout Europe, which he said have served to make the task of the disarmament conference more difficult.

In presenting to the commission his compromise disarmament plan, which the British delegation termed a "salad" combining the outstanding features of all the proposals submitted thus far, MacDonald opened what he called "the last phase of disarmament."

Must Extend Equality.
MacDonald made no secret of the fact he considers the key to European peace now lies in satisfaction for Germany. "The conference," he said, "is bound to give Germany equality."

Adjournment 'till the clouds pass' is useless, for clouds do not pass. "Germany must first know what she is going to get."

Satisfaction for Germany, MacDonald pointed out, automatically involves sacrifices for France.

Must Have Security.

"If France sacrifices her military security," he said, "she must have security in some other form."

"The British plan is no message from Mars. But a European compromise is going to satisfy nobody completely."

"I am too old a bird," he continued amid laughter, "to expect to satisfy anybody."

"But sleep over the British plan. It will serve as a transition period of five years."

May Not Need Jury At Court Next Week

Indications were today that the jury which has been summoned for criminal court next week may not be called. There are only about ten cases on the list remaining untried. Some of these may be continued on account of the absence of witnesses and others may be ended by pleas. Judges Hildebrand and Chambers and District Attorney John Powers went over the list this morning, but as it is a little uncertain how long the cases now before court will take, it was thought best to postpone announcement of what will be done next week until tomorrow.

Appointment Of Edmonds Opposed

Oppose Appointing Of Franklin Spencer Edmonds Of Philadelphia As Senate Counsel

(International News Service)
PHILADELPHIA, Mar. 16.—Two Philadelphia organizations today formally opposed appointment of Franklin Spencer Edmonds, Philadelphia attorney, as chief counsel for the state senate utility investigating committee because of his affiliations with utilities.

The Central North Philadelphia Business Association and the Independent Roosevelt workers forwarded their messages of opposition to state officials at Harrisburg after State Senator John J. McClure, Delaware, chairman of the probe committee, announced Edmonds' selection.

Edmonds, a former state representative, said he has accepted the appointment and promised to "use my best endeavors to see that the inquiry results in definite good for the people of Pennsylvania."

Is Shareholder.
He said that he had represented several small utilities in past litigation but in most cases acted as counsel because he was a shareholder. He declined to answer questions about his reputed ownership of utility stocks.

Edmonds is general counsel for the Philadelphia Chamber of Commerce of which Philip H. Gadsden, head of the United Gas Improvement company is president. The Roosevelt workers, through Mrs. E. B. Binns, chairman, charged that Edmonds was closely affiliated with U. G. I.

Meanwhile, Public Service Commissioner Frederick P. Gruenberg issued a statement here declaring the utilities investigation should be "rigorously and expeditiously continued." Although appointed Gov. Gifford Pinchot, Gruenberg did not join in a similar statement issued a few days ago by Commissioner George W. Woodruff, P. S. Stahlnecker and C. J. Goodenough. That statement absolved the governor of charges made by Dr. Clyde L. King, chairman of the commission, that the chief executive had endeavored to dictate commission appointments, an accusation which the Gruenberg statement ignored.

Urge Reduction Of Taxes From Salary Slashes

State Education Association Not Opposed To Permissive Salary Cut For Teachers

WOULD HELP OUT ALL TAXPAYERS

(International News Service)

HARRISBURG, Mar. 16.—The executive council of the Pennsylvania State Education Association is not opposed to a permissive ten per cent reduction in teachers' salaries but believes that the consequent saving should be used entirely to reduce the burden of local taxation.

Meeting here, the council thus voiced its attitude toward proposed school legislation. It vigorously opposed adoption of a section of the house bill which would authorize the State Council of Education to reduce salaries in poorer districts more than ten per cent.

"To do so," the association asserted, "would balance the budget in those districts at the expense of the most poorly paid teachers."

Recommending maintenance of present state school appropriations, the organization stated "it could not endorse any measure which in time of an emergency proposes to reduce the amount of state aid to be given to local districts."

Increased Burden

"Any substantial reduction in state aid means either increased local tax burdens or decrease educational opportunity."

The association expressed its approval of the general principle of consolidation, but stated its belief that it is inadvisable to authorize any agency at this time to initiate consolidation affecting districts of more than 1,000 population.

Members of the council who attended the meeting included: Mary Barrett, Scranton; M. S. Benz, Ebensburg; Will Earhart, Pittsburgh; Wilmer K. Croff, Berwyn; C. W. Lillibridge, Smethport; Russell D. McCombs, Edinboro; William C. Sampson, Upper Darby; and Francis B. Haas, president, Bloomsburg.

SUNDAY LAWS UPHELD AT MASS MEETING

McSparran Urges Upholding Law

Secretary of Agriculture
Speaks At Meeting Of
Church Workers Here

SCORES DEFAMERS OF SABBATH DAY

"We are defaulting in our obligations to God Almighty," said John A. McSparran, Secretary of Agriculture of Pennsylvania, as he spoke on Sunday observance and law enforcement Wednesday evening before an audience of several hundred in the First Methodist church.

A. Clyde Shoaf was chairman of the program and the service opened with the audience singing "America" led by Rev. D. L. Ferguson, pastor of the Highland U. P. church, and a prayer by Dr. Norris A. White of the First Methodist church.

Mr. Ferguson then sang a solo number, an arrangement of "Rock of Ages," accompanied by Mrs. Jay L. Reed, after which R. L. Wallace introduced the speaker of the evening, John A. McSparran, as a good politician, a dirt farmer, secretary of agriculture in Pennsylvania, and a minister, speaking against the encroaching evils of the times.

McSparran speaks. "It means a lot to us to live in a Christian land and enjoy the heritages our forefathers left to us," said Mr. McSparran, in opening his address. "These heritages are ours to use, enjoy and destroy, if it is our pleasure, but we hold that it is not our privilege to break down these gifts."

"We have enjoyed the products of inventive genius and these are a

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes these good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25¢ at all stores. © 1931 C. M. Co.

part of our Christian civilization, for what heathen country enjoys the modern inventions that are every day conveniences in this Christian land of ours," he continued, and then went on to say that in these days of materialism we have sold our souls for a mess of pottage and those who depended upon for honor have failed and those we trusted have failed in our trust.

"We ask 'why this depression?' but we have only to look around and study conditions to extract the cause," Mr. McSparran said he had been a student of public affairs and public economy for the past 40 years and never in that period has there been 11½ million people out of employment, never has there been so many starving, and never so much excess of food.

"How do we account for this?" he went on to ask. "We cannot account for it as a political economy, but by the fact that we are not blessed by God's approval."

People Are Slipping. "We are slacking and faltering. We have no leadership, and the hope of the people of the country now, in spite of party differences, rests with the president. We think somehow he will bring us out of this situation. We are hoping against hope. The case can easily be diagnosed as offense against God, we have offended against things we should not offend. We think we can dictate to God Almighty and we cannot over-ride His fundamental principles."

In ages past God laid down the law that the Sabbath must be kept and when His chosen people did not keep this law, He punished them, and are we any better today than those of ages gone? It is time the people understand their limitations as well as opportunities and when we take the Bible out of our schools, try to separate the church and the state, the people do as they please about religion, then it is time for God to step in.

"When the Sabbath day is turned into a commercial day in spite of the law and now the legislators are trying to legalize the commercialism, it is in direct opposition to the law as laid down to Moses and the legislators have no right to defy the law of God. How can we develop Christian characters that will stand the stress of the times if we do not set aside a certain time to worship God and to learn of Him."

He went on to say there is no excuse for doing these things on the Sabbath, there is plenty of time provided in six days to make a living and He provided for the human body when He made a day of rest and it is up to the army of Christian citizens of the country to see that this law is kept.

"We are the most intelligent nation in the world today and we ought to see that we can not stand by and let the advancement we have made turn to shreds."

"We are slipping in national honesty, the men in places of high responsibility are defaulting and the ordinary man and woman are defaulting in their obligations to God. Slogan of Nation."

"It seems the slogan of the nation is 'Do As You Please if You Can Get Away With It,' but we can not get away with it, we are facing a mighty serious situation at the present time and if we allow the laws we have stood for so many years to be broken down now and taken from our constitution, then we can only hope to go backwards."

He spoke of the 18th amendment as well as the Sunday laws and appealed to the citizens to rally to the support of these laws.

He concluded by saying the nation is worth our best efforts and each person in the nation must give his best effort to support what is good for the country.

At conclusion of his address a resolution was passed to be sent to A. S. Batchelor and William McElwee in appreciation of their efforts in opposing the proposed bills against the Sunday laws.

The meeting closed with prayer by F. S. Brennan.

Following the victory of Chancellor Adolph Hitler in the elections the flag of Imperial Germany is once more the national emblem.

Scoutmen Ready To Hibernate To Camp

Local Leaders' Trip To Mark Part Of Training Course Required

Friday morning is the "deadline" for county scouters to register for the week-end leader training course at Camp John M. Phillips, the scout office having to make arrangements for food at that time.

A number of the officers of the county will attend and the business session will be held from 7 to 8 and at 8 o'clock the meeting will be open to the public.

Dr. J. A. Galbraith of the Epworth Methodist church, will give an illustrated lecture on his trip to the Holy Land.

SEEKING AID FOR SCHOOL DISTRICT

GROVE CITY, Pa., Mar. 16.—Pine township school district made recent application for assistance for its schools to the Pennsylvania Council of Education which met at Harrisburg. The district has had plenty of hard luck. The Pine Top school burned in January. The children are now being schooled in Grove City but the township must pay the tuition from a fund already badly depleted by the fact that many cannot pay their tax.

Stockholders of the New Castle Hotel company will hold the annual stockholders meeting in the ball room of the Castleton Hotel at 8 o'clock tonight.

Home Circle Enjoys Annual Stunt Night

Old Time Vaudeville Stunts
Furnish Jolly Evening
For P. H. C.

Old time vaudeville was revived last evening when the New Castle lodge of the Protected Home Circle had its annual stunt night. Under the able direction of Past President Harry Mehlman as chairman, in charge of arrangements, the affair was an outstanding success. Much talent was displayed in all the verses, songs and skits. Those participating were:

State Deputy M. Henlein of Erie, George W. Muse, A. L. Conn, Mrs. Mildred Boyd, Mrs. David Tucker, David Tucker, Mrs. John Shaffer, Ada and Minnie Shock, Ruth Hughes, Ethel Cowles, Georgia Ringler, Mrs. Helen Ray, Nina Strong, Mrs. Mary Patterson, Mrs. Hazel Hicks and Jean Hicks, Miss Gladys Erwin, Mrs. Belle Kennedy and sons Jack and Charles, Mrs. Kathryn Jaxheimer, Miss Mildred Rodgers, Hoyt Ward, Anna Lyden Gulinski, Harry Mehlman, Stephen Gulinski and Roy Erwin.

Mrs. Roy Layman very nicely assisted Ethel Cowles, Georgia Ringler and Nina Strong in accompanying their dances on the piano.

At a late hour Mrs. Kate Cowles, assisted by her committee, served a dainty lunch.

City Seascouts Are Greenville Visitors

Lawrence County's Unit Pays Mercer Group Call; Get Warm Welcome

Seascouts from the local council unit "Lawrence" had a worth-while get-together with Seascouts from the Mercer county council unit, "Lawrence," at Greenville, last night, the men getting together in the Greenville unit's headquarters in the fire house there. County Executive Chester Childs, the Seascout chairman and the council president were also present. The "Lawrence" Seascouts gave formal honors to the visiting group, and officers of both councils made short addresses. Plans for the benefit of both "ships" were talked over, and after the formal session, all hands lined up for chow at the galley.

On account of last night's session there will be no local Seascout meeting this Saturday evening, but on Saturday the 25th the Seascouts will meet for an intensive period of checking up on tests passed and preparing for the "bridge of honor" on the 30th. At this award session it is hoped that several Seascouts may be ranked as "Ordinary" grade—the next step up from Apprentice rank; corresponding somewhat to Second Class rank in Scouting—except that the work is a much more difficult. It is hoped that most of the charter members will achieve this rank.

Special Meeting Of School Board Set For April 1

For the purpose of formally setting the tax millage for the coming year, the New Castle school board will meet in special session Saturday night, April 1, in conformity with the law. The millage has been decided upon and the budget accepted, but the law says that the actual setting of the millage shall be on April 1.

OFFER TO RID JUNIOR HIGH OF TERMITE PEST

P. C. Kelley and James L. Dailey presented a proposition to the New Castle school board Wednesday night at the board meeting, whereby they agree to rid the Benjamin Franklin junior high school of the termites which are eating the woodwork there, for the sum of \$75. The offer was referred to a committee consisting of Superintendent of Buildings and Grounds S. G. Ligo and Directors Hyde and Bauman.

Board Rejects Dr. Rule's Request

Members of the New Castle school board received a request from the state superintendent, Dr. James L. Rule, Wednesday night, in which he suggested the insertion of a clause in the contracts for teachers the coming year which would make the new contracts conform to any new legislation.

After some consideration the board refused to act in the matter on the ground that the insertion of any such clause might lead to misunderstanding, misinterpretation and possible nullification of the contracts.

Select New York Yankees To Again Capture Pennant

World's Champions In 1932
Look Good To Repeat
Performance This
Year

Will Not Take On Very
Many Recruits; Depends
On Ruth And Gehrig

By FRANK (BUCK) O'NEILL
International News Service Sports
Writer

ST. PETERSBURG, Fla., Mar. 16.—The New York Yankees, winners of the 1932 world series in four consecutive games, will go to the post on April 12, strong, if not prohibitive favorites in the pennant race. The Yankees spread eagled the American League field last year, and despite the trading activities of the Washington Senators, which unquestionably strengthened Griffith's team, the public looks to the Yankees to win convincingly.

The assets of the Yankees are:
1. Terrific batting punch and scoring ability.
2. Exceptional pitching power.
3. The best catching staff in either league.

The problems of the Yankees are:
1. Babe Ruth.
(A) How far has he slipped since last year when obviously he had passed his peak as a player?
(B) How many games will Ruth's legs carry him through?
2. Joe Sewell at third base. Will he crack?
3. The shortstop situation.

New players who may prove sensations:
1. Russell Van Atta, pitcher from St. Paul.
2. Don Brennan, pitcher from Newark.

Very Few Editions.
The probabilities are that with the exception of the two recruit pitchers named above, a southpaw and right hander respectively, there will be few additions to the Yankee team this year. But even without them the pitching staff is strong.

In the infield, Lou Gehrig is unsurpassed as a first baseman and Tony Lazzeri should have a good year at second base, following his spectacular comeback last year, but the left side of the infield offers a problem for McCarthy. Neither Lynn Lary nor Frank Crosetti was satisfactory last year. Lary just had a bad year. Crosetti failed to hit, and developed certain faults in fielding that greatly handicapped him. Billy Werber, the kid from Buffalo, might sneak in and grab a job at shortstop or third base.

Sewell Still Good.
No one knows how much longer Joe Sewell can carry on. The tiny southern lad has been in the majors now since 1920. He has slowed down greatly, but his vast experience and exceptional talent as a batsman give him a bulge on younger and faster men.
Crosetti is said to be a better third baseman than he is a shortstop. Werber played third for Buffalo last year. If these boys can offer greater values at the turn for home than Sewell can, they will get the job.

NORTH BEAVER

Miss Minnie McMurray is suffering from sinus trouble.
Irene Metz, near New Castle spent the week end with her grandparents Mr. and Mrs. William Fullerton.

A special meeting of the North Beaver Taxpayers league will be held in the high school, Monday evening, March 20.

Mr. and Mrs. Laurence Moore, Beaver, were guests at the home of the latter's parents, Mr. and Mrs. George McArdle, Sunday.

Mrs. Lyle McCann and children, Erie and Mrs. Anna McClymonds, New Castle are visitors at the home of their father, Edward Dinsmore.

The homes of several families of the community are under quarantine for scarlet fever, several cases have developed in the past week.

The young ladies guild of the Westfield church held their regular monthly meeting at the home of Miss Ruth Gilchrist, Saturday afternoon.

There were no services at Bethel church Sabbath except Sabbath school, due to the absence of Rev. G. W. Neill, who was called to Pittsburgh last week, by the serious illness of his mother.

Mrs. Adrian Shultz entertained Misses Della Paden and Pearl Stanley, Mt. Jackson and Mrs. Charles Sherer at her home Friday. The day was spent in quilting and at noon the hostess served a delicious dinner.

RICHMANS TAKE GAME.
Richmans basketball team added the Olympics to their string of victories last night at the Armory floor, with Don DeCaprio the high scorer of the contest with 15 points. Augustine, Yeager and Rozak also played good basketball. Valle was played good for the losers. Tonight the Richmans will meet the Night Hawks for the title. The game will start at 7:30 o'clock.

New Castle Cosmos Trim Youngstown

New Castle Cosmos basketball team defeated the Y. M. H. A. team of Youngstown last night in a Jewish league game at the Youngstown floor. The Cosmos led at the half 14 to 9. The game was won by Hy Levine in the final few seconds of play by a one-handed shot from the center of the floor. Rogovin and Sae Levin also played good basketball for the Cosmos. The playing of M. Shaw featured for the losers.

Croton will enter, it is reported, if they can again obtain use of the playing field.

The Polish Nationals have not yet furnished a decision to the league officials, it is reported.

Reports drifting in from Volant are to the effect that Volant will also seek a franchise.

The next meeting will be attended by managers and umpires only.

In three years the locals have won 120 games and lost 28. Fred Marcella, local well known sportsman of the South Side is in charge of the meeting called for Sunday.

Interclass Games At Franklin High

Three New Castle Players High In Tourney Scoring

Zeleznik, Duquesne Leads With 26 Points, Reiber, Teplica And Kelly High

Out of the five leading scorers in the W. P. I. A. L. tourney to date Duquesne holds first and fifth place, with New Castle players second, third and fourth. Zeleznik of Duquesne high is the leading scorer with 26 points in three games played, so far, and Johnny Teplica of New Castle and Capin Lester "Bus" Reiber are second with 25 points, while big Joe Kelly is third with 24 points. Badvansky of Duquesne, also a big center, is fifth with 23 points.

The game Saturday night besides deciding the schoolboy championship is going to find either a Duquesne or New Castle man high scorer for the 1933 tourney. Walter Kominek of the New Castle team has scored 13 points, and Joe Hnat has scored nine points.

There is no question about New Castle and Duquesne being the tourney leading teams, according to figures compiled today.

MUSHBALL TEAM TO MEET.
The W. A. C. mushball team will hold an important meeting tonight at 7 o'clock at the home of Joe Rogers, 412 Green street. All members are asked to be present and any others desiring a tryout.

New Castle Will Face Tough Foe Saturday Night

Duquesne High Promises To Be Toughest Of Year For New Castle Quintet

PRACTICES ARE BEING RESUMED

Five varsity basketball players representing New Castle high school are working out diligently at the big George Washington junior high floor, with but one purpose uppermost in their minds, "Beat Duquesne". On Saturday night at the Pitt Stadium New Castle high school basketball team will go up against their ancient tourney rivals, Duquesne High. The championship of the W. P. I. A. L. for 1933 is at stake. The battle is due to start at eight o'clock.

The championship does not mean so much to the New Castle players as a chance to even up a few scores with this Duquesne combination. Annually this Duke outfit looms as a "bugaboo" for New Castle. The 1933 New Castle team hopes to erase this Duke menace. If memory serves us right New Castle has beaten Duquesne once in three starts. The locals can even up the count this season, in addition to taking the schoolboy toga. What luller setting could one find for a title engagement? Two deadly rivals, and with one team trying to even up the series.

Players Determined
So is it any wonder that Reiber, Kominek, Kelly, Teplica and Ridley go about their limbering-up exercises at Washington high this week with grim countenances? There is no smiling at the practices, no clowning, no lost motion, nothing but basketball. If ever a team wanted to win, New Castle does Saturday night.

Tickets for the game, if bought here in New Castle at the Sporting Goods Store, will be 40 cents, and if the fans wait until they get to Pittsburgh they will find a 75 cents admission sign up. It is indicated that this game Saturday will draw the biggest crowd of the tourney.

Championship Battle
Anyway, this game that is about to be unfolded for the basketball fans at the Pitt Stadium has all the earmarks of a championship battle, and with all of the Pittsburgh area pulling for Duquesne to come through, New Castle will have to send a big delegation of fans to the stadium. New Castle high has never been handed anything in Pittsburgh; they have fought for everything that they have won.

Tickets for the game, if bought here in New Castle at the Sporting Goods Store, will be 40 cents, and if the fans wait until they get to Pittsburgh they will find a 75 cents admission sign up. It is indicated that this game Saturday will draw the biggest crowd of the tourney.

During the Mercer county tournament they were off uncertain play and played like veterans in the closing game.

Building-up Process At Grove City High Brings Success

HARTMAN FORMER NE-CA-HIGH STAR

Joe Hartman, former star at New Castle high and now athletic coach at Grove City high school has coached eight years and this season had the pleasure of seeing the Grove City high school win the Mercer county basketball championship. Grove City will meet Oil City, Friday night in the first district 10 game. The game will be played at Grove City.

Hartman assumed control of athletics at a time when they were at low ebb. George Gould had resigned to go to Homestead. For two years Grove City high failed to get anywhere and Hartman started building for the future.

Had Good Eleven.
He succeeded in football as his 1927 eleven was ranked among the best in the district. The following year saw him lose the title to Shar-on but tied with the Orange in 1930.

In basketball, however, Grove City high was not so hot. Class A rivals beat 'em and the Hartman bowed to some Class B fives.

Things weren't too bright this year as Josefus had to build a new team. They showed possibilities and began hitting just before the season ended.

During the Mercer county tournament they were off uncertain play and played like veterans in the closing game.

These are 50 members in Hillsville and West Pittsburg, each. Dewey Pollyblank is the president of the West Pittsburg club and W. F. Masson heads the Hillsville body.

Flats Boosters To Meet Friday

Clifton Flats Boosters club will meet Friday night at the club rooms at 8 o'clock for their weekly discussion and business meeting. It was announced today. All members are urged to try and attend this meeting.

Edward Pritchard, who has been associated with sports in New Castle for many years has been secured to speak to the Boosters Friday night. Just what Mr. Pritchard will use for his subject is not known, but he has spent many years on the South Side and will have a lot of baseball experiences to tell the boys.

Not Hitting At Boys' Industry

Crab Removers From Out Of State Chief Target Dadds Says

NOT MANY TANKS IN THIS SECTION

Lawrence County Sportsmen's association was not hitting at the small boys who obtain crabs for sale when it voted to ask the fish commission and its legislative agents to prohibit the removal of crabs from streams for commercial purposes, according to Andrew Dadds, president.

Today it was pointed out to the association president that small boys in this vicinity had for some years been obtaining small supplies for fishermen. He was informed that these lads do not obtain large numbers of crabs and do not put them in tanks to undergo a process to make them good bass bait.

Against Big Operators.
President Dadds said that the sportsmen's chief objection is to persons coming with tanks from outside the state, finding where there are crabs, collecting them and departing on their way. He also rapped the practice of persons who have big tanks of cleaning crabs from streams.

There has been a crab industry here for years, operated mostly by small boys, each of 'em bent on earning a few pennies. One could put in an order and obtain them the same night or early the next morning. No tank here has operated on a big scale. One has operated in Mercer county for several years.

Coach Boyd and his Unionites hope to avenge the setback suffered at the hands of Shenango high earlier in the season at the Union high floor. Shenango high, with Ed Raney directing, will be hard to beat on their own floor. Union will play two more games after Friday night, meeting East Brook at Union and Wampum at Wampum.

STRONG LEADERS

(International News Service)
NEW YORK, Mar. 16.—A boom in commodity prices brought another uprush in the stock market in enormous trading today.

Huge buying orders poured into the market from the opening and the high speed ticker was swamped, trailing the market 8 minutes the whole first hour. Turnover for this period was around 1,500,000 shares, the biggest buying volume in many months.

Profit-taking was on a tremendous scale and this checked the rise after the last run up from 1 to more than 4 points. This sent some stocks under the previous close but the general market met strong support and prices were generally higher.

Cotton started trading for the first time since the holiday with a bulge of \$5 a bale. The Chicago Board of Trade resumed also and wheat soared 5 cents a bushel, corn 3 cents and other grains in proportion.

Other security market were strong but quieter than yesterday. Bonds, curb and bank stocks tended higher while the dollar steadied.

Beer stocks surged forward again under the leadership of Owens Illinois, which spurted more than 3 points on top of yesterday's 9-point rise.

U. S. Steel, American Telephone and Allied Chemical were strong leaders. Rails were inclined to lag while utilities failed to do anything spectacular.

Passage of the economy bill by the senate and prospect that the beer bill would be rushed through added to bullish enthusiasm.

KIWANIS LEADER LUNCHEON GUEST

Lieutenant Governor Horner Comes From Washington Address Club

Kiwanis clubs of the nation can generate a powerful force in these trying times for preserving the high educational standards of America, the New Castle club was told Wednesday when Lieutenant Governor Meyer B. Horner, Washington, Pa., spoke to the members at their weekly luncheon in The Castleton.

"Thinking America" was the theme for the noon message which the lieutenant governor brought. Mr. Horner's jurisdiction covers the 13 clubs of the central Western Pennsylvania section.

The club welcomed their district leader in a manner most impressive, and Dr. C. C. Green, local school superintendent and a personal friend, was on hand to introduce him. Mr. Horner is superintendent of schools at Washington.

President Norman E. Clark presided as usual, and introduced to the club Lieutenant Governor Horner's traveling escort, "Hank" Day, athletic director of Washington and Jefferson college. Day did not speak.

In his message to the club the Washington educator stressed the importance today of calm, considerate and sober thinking, emphasizing forcefully what the consequences will be if America fails to diagnose her difficulties without resort to thought and concentration. The lieutenant governor declared the truth, the bold facts must be established.

President Clark and his board of directors met briefly with their visiting leader at the close of the meeting to review their accomplishments and sketch future plans.

velling gavel from Lawrence county. There were sixty grangers from Lawrence county who ate dinner in the dining room of the George Washington hotel, where the meeting was held.

The East New Castle grange meets the second and fourth Tuesday of each month, and the meeting last Tuesday was held at the home of Mr. and Mrs. G. L. Reno, near the old Pittsburgh road. The roll call caused much merriment as each one was required to tell some experience of the first day at school. The next meeting will be held with Mr. and Mrs. McDaniel of Castlewood, and the question, "How much housework should be done by the men of the family," will be ably discussed.

Not many of us can have two birthday dinners given in our honor but such was the happy lot of Mr. Charles Benson, of Gardner. There was a beautifully appointed table at the home of his son Oscar, with lighted candles, on Sunday night, and on Monday night the children and grandchildren came to the Benson home at Gardner bringing well filled baskets of good things, congratulations, and best wishes, and a generous purse, of coin of the realm. Those present were Mr. and Mrs. Oscar Benson, Mr. and Mrs. John Benson, Mr. and Mrs. Harold Gray, and Evelyn, Bobby, and Dolores, Mr. and Mrs. Carl Benson, and Norma Elaine, Mr. and Mrs. Scott Anderson, Mr. and Mrs. Carl R. Johnson, Ruth and Junior, and the guest of honor, Charles Benson, to whom this pleasant party was a complete surprise, and the guests departed at a late hour wishing him many happy returns of the day.

Third Church Men Name New Officers

Splendid Program Of Entertainment Features Annual Meeting Of Bible Class

The Men's Bible class of the Third U. P. church held its monthly and annual session Wednesday evening in their class room and an election of officers featured the meeting.

Ray Zeigler was named president; G. G. Orr, vice president; Allen Cartwright, secretary; Henry Williams, assistant; William Williams, treasurer; S. B. Copeland, teacher; and Harry Thornburg, assistant teacher.

Miss Elizabeth Eakin will be pianist; Thomas Hopkins, chorister, and C. G. Harris, assistant.

When the business of the evening was over, the entertainment was most adequate, opening with a comedy skit by the Railroad quartet, Edgar McCown, Jack Barnett, John Kyle and George Kyle; a sextette by the Lutz children; and music throughout the evening by the Kramer orchestra.

The members of Section G of the Y. L. B. class presented a pretty playlet, "The Bachelor's Dream," written by Mrs. John Hemminger and given under the direction of Mrs. C. Clark.

Frew Book and his committee closed the evening with a splendid lunch.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

About once a year he drops in back from some out of the way place that is just a spot on the map to you and me, and every time he drops in I wonder what's wrong with the system that keeps you and me at home while this chap can roam round the globe.

He was in yesterday, Fred Fine-frock, just back from a trip to Aruba, an island of the Dutch West Indies ninety miles off the coast of Venezuela, where the weather is 110 in the shade and they serve quinine in their beer.

Back of that trip is a host of expeditions that have carried him around the globe. The British Isles, the Continent, the Dardanelles, North Africa, India, the Malay Straits, China, Japan, Australia and the islands of the South Sea, Papeete, Pago Pago, Society Islands and the Samoan Islands, New Zealand, Singapore, Asia Minor and the Aegean, all of them have seen him while you and I stayed home.

The technique of each trip is comparatively simple. From New Castle he hitch hikes to some port town, New York, Boston, Baltimore, Corpus Christi or San Francisco. This last time it was Corpus Christi where he shipped on a tanker making a trip up to New York and back and then on one that went to Aruba.

For ten years he has been doing it, until by now he lists himself as a seaman. His immediate concern is getting to the Marine Hospital in Cleveland for dry dock repairs and then back to the sea again, probably in the South American tanker service.

Aruba, he says, is a stony island where the trade winds keep the leaves of one side of the trees stripped, where there isn't much vegetation, but where there are a lot of refineries. Venezuelan oil is refined there and shipped to all parts of the world.

One trip he did not make or rather not make it with Byrd to the South Pole. Seamen are being signed now for the next dash to the pole, to sail on the Bear. This old ship Pinefrock was on in the Coast Guard service. They are signing mostly Norwegian sailors for the trip however, as the Bear is an old sailing ship and a steam sailor is not familiar with sailing tactics.

Another volunteer has appeared in the proposal to gather jig saw puzzles and distribute them to hospitals or Children's Homes. J. V. Blaha has offered the services of his corps of agents to pick up the puzzles at any point in the city and in a day or so we should have this project ready to get under way.

YOUNGSTOWN SHOW HOUSES MAY CLOSE, OVER WAGE DISPUTE

YOUNGSTOWN, O., Mar. 16.—Youngstown theater managers today asked their motion picture operators and stage hands to take a wage cut, which approximates between 25 and 30 per cent, saying that unless the men take the reduction, the theaters will be closed.

"Conditions are such now that we cannot continue unless we have the co-operation from you that we have long requested," the managers wrote to the union executives.

The managers say that men in Akron and other cities are working at a scale lower than the one here. They ask a scale of \$50 a week for big downtown houses, \$45 for second run downtown houses, and \$30 for neighborhood houses.

(International News Service)
RIDGWAY, Pa., Mar. 16.—Police today were looking for three men who, posing as prohibition agents, entered the home of Mr. and Mrs. Feldbauer, of St. Marys, near here, and after telling the couple to stay in the kitchen of their home, ransacked a trunk in another room, and escaped with \$900.

Vague descriptions, given police by the aged couple, were the only clues, according to Police Chief Carl Yetzer.
